

Upcoming Provider Webinar: Best Practices to Support Vaginal Delivery and Reduce the NTSV Cesarean Section Rate

Health Net Community Solutions, Inc. (Health Net) and CalViva Health are partnering with California Maternal Quality Care Collaborative (CMQCC) to present a webinar in an effort to assist participating hospitals to continue to reduce the Nulliparous, Term, Singleton, Vertex (NTSV) cesarean section rate to 23.9 percent or below by the end of 2019. Participating hospitals are encouraged to attend the informational/educational webinar to learn about the CMQCC toolkit for reducing NTSV cesarean deliveries and share best practices.

WEBINAR INFORMATION

The webinar is March 15, 2018, from 12:30 p.m. to 1:30 p.m. Pacific time (PT). Dr. Elliott Main, Medical Director and Executive Committee Chair of the CMQCC will be presenting. Topics include:

- The importance of supporting vaginal birth and reducing NTSV cesarean rates.
- How to get involved in CMQCC and join the Maternal Data Center.
- Potential collaborations with other providers to help implementation at your site.

Providers can register for the webinar at www.surveymonkey.com/r/Z6RQFQ5.

ADDITIONAL INFORMATION

Providers are encouraged to access the provider portal online at provider.healthnet.com for real-time information, including eligibility verification, claims status, prior authorization status, plan summaries, and more.
