Fee-For-Service Utilization Data Report

The Department of Health Care Services (DHCS) provides Medi-Cal fee-for-service (FFS) utilization data reports to CalViva Health each month. Effective March 21, 2018, Health Net Community Solutions, Inc. (Health Net), on behalf of CalViva Health, is sharing these CalViva Health member data files with primary care physicians (PCPs) and participating physician groups (PPGs) to allow for better care coordination.

PCP REPORTS

A detailed FFS utilization data report will be mailed to the assigned PCP for any of their assigned members who have received services through Medi-Cal FFS in the past 12 months.

PPG REPORTS

PPG level reports are available on the provider website at provider.healthnet.com under *Provider Reports > Available Reports > FFS Utilization Data*. Providers can also access and view file layouts under *Provider Reports > Data File Record Layouts > Medi-Cal.*

The delegated administrator must grant access rights to those individuals needing access to the FFS utilization reports.
