Provider Webinar About Decreasing NTSV Cesarean Section Rates: Putting it into Practice

Health Net Community Solutions, Inc. (Health Net) and CalViva Health are presenting a webinar to assist participating hospitals in reducing the nulliparous, term, singleton, vertex (NTSV) cesarean section rates. Participating hospitals are encouraged to attend the informational/educational webinar to learn about reducing NTSV cesarean delivery rates and share best practices.

WEBINAR INFORMATION

The webinar is Thursday, April 19, 2018, from 12:30 p.m. to 1:30 p.m. Pacific time (PT). L. Jeanine Arndal, MD, FACOG, of Northern Inyo Healthcare District will be presenting. Northern Inyo was on the Smart Care Initiative Hospital C-Section Honor Roll for the past two years.

Topics include:

- Discussion of practices to prevent the first cesarean section.
- Preterm premature rupture of membranes (pPROM).
- Unique hospital practices.
- Results and continued work.

Providers can register for the webinar at www.surveymonkey.com/r/MBXTPSD.

ADDITIONAL INFORMATION

Providers are encouraged to access the provider portal online at provider.healthnet.com for real-time information, including eligibility verification, claims status, prior authorization status, plan summaries, and more.

If you have questions regarding the information contained in this update, contact CalViva Health at 1-888-893-1569.
