Medi-Cal Diabetes Prevention Program Targets Type 2 Diabetes

The Diabetes Prevention Program is a covered benefit for eligible Medi-Cal members beginning in 2019

On July 10, 2017, Senate Bill 97 (Chapter 52, Statutes of 2017) and Assembly Bill 1810 (Chapter 34, Statutes of 2018) were revised to require the Department of Health Care Services (DHCS) to establish the Diabetes Prevention Program (DPP) as a Medi-Cal benefit within the fee-for-service (FFS) and managed care delivery systems. The Medi-Cal DPP will be consistent with the guidelines provided by the Centers for Disease Control and Prevention (CDC) and incorporate many components of the Centers for Medicare & Medicaid Services (CMS) DPP in Medicare.

PROGRAM OVERVIEW

Effective January 1, 2019, DPP is available to eligible Health Net* Medi-Cal members as a covered benefit. DPP is an evidence-based, lifestyle change program that promotes and focuses on emphasizing weight loss through exercise, healthy eating and behavior modification. The program is designed to assist Medi-Cal beneficiaries diagnosed with prediabetes in preventing or delaying the onset of type 2 diabetes.

The DPP core benefit lasts one year, and consists of 22 peer-coaching sessions as follows:

Session Type	Frequency	Description
CORE SESSIONS	16 weekly	At least 16 sessions over the first 6 months (for months 1 through 6)
CORE MAINTENANCE SESSIONS	6 monthly	At least 1 session per month over the next 6 months (for months 6 through 12)

Members who achieve and maintain a minimum weight loss of five percent by the end of the year will be eligible to receive ongoing maintenance sessions to help them continue healthy lifestyle behaviors.

Omada Health will administer the DPP benefit. Omada is an online health program. Eligible members will interact with a health coach, receive a wireless scale and pedometer, engage in small online peer group support, and receive weekly online lessons.

DPP ELIGIBILITY

Medi-Cal members who meet the following DPP eligibility requirements may be referred by providers:

THIS UPDATE APPLIES TO CALIFORNIA PROVIDERS:

- Physicians
- Participating Physician Groups
- Hospitals
- Ancillary Providers

LINES OF BUSINESS:

-
- Be enrolled in Medi-Cal.
 - Be at least age 18 or older.
 - Have a body mass index (BMI) of at least 25 if not identified as Asian; have a BMI of at least 23 if identified as Asian.
 - Have had one of the following within 12 months prior to the provider's recommendation:
 - A hemoglobin A1c test with a value between 5.7 and 6.7 percent
 - A fasting plasma glucose of 110–125 mg/dL
 - A two-hour plasma glucose of 140–199 mg/dL
 - No previous diagnosis of type 1 or type 2 diabetes, excluding gestational diabetes.
 - Do not have end-stage renal disease (ESRD).

HOW TO REFER A MEMBER FOR DPP PARTICIPATION

Providers can refer members who meet the DPP eligibility requirements to the program by completing the attached Diabetes Prevention Program Provider Referral Form and faxing it to 1-800-628-2704. A fax cover sheet must accompany all fax transmissions of Protected Health Information. The cover sheet must be labeled "PROTECTED HEALTH INFORMATION."

Providers can also refer members to call Member Services at 1-800-675-6110 (TTY: 711) to learn more about the program. Members may access Omada Health directly at omadahealth.com/HN-Molina and take the eligibility assessment to register for the DPP program.

ADDITIONAL INFORMATION
