New Medi-Cal Providers Must Show Proof of DHCS Application

Complete the DHCS PAVE process to participate in the plan's Medi-Cal network

The Department of Health Care Services (DHCS) requires that all Medi-Cal managed care network providers enroll in the Medi-Cal Program. Newly contracted providers may only participate in Health Net^{*} and CalViva Health's Medi-Cal network if any of the following conditions are met:

- Showing active in the DHCS monthly enrollment files of Medi-Cal FFS providers,
- Complete a like process from another managed care plan (MCP) that meets the requirements under All Plan Letter (APL) 17-019, which shows proof of their enrollment, or
- Be under a Provisional Enrollment that will allow participation in the plan's Medi-Cal network for 120 days as long as the provider shows proof of their application with DHCS through the Provider Application and Validation for Enrollment (PAVE) system portal.

Provisional enrollment

Newly contracted providers may participate in the plan's network for up to 120 days pending the outcome of the DHCS screening and enrollment process. Providers must show proof they have applied with DHCS.

Proof of application means DHCS correspondence showing the provider's application was submitted and accepted. Proof of application can be one of the following:

- Screen shots from PAVE.
- Written correspondence from DHCS.

Proof of applications must contain the provider's National Provider Identifier (NPI), address and date the application was accepted. The applications can be sent along with provider profiles that providers regularly send to the plan.

The plan monitors participating physician group (PPG) rosters sent to the plan. Any changes during the provisional period must be communicated with the plan to comply with DHCS and to update our records.

Failure to complete enrollment within the 120 days may result in the termination of that provider from the plan's Medi-Cal network.

THIS UPDATE APPLIES TO MEDI-CAL PROVIDERS:

○ Physicians

- Participating Physician Groups
- Hospitals
- Ancillary Providers
