

# PROVIDER Update

CONTRACTUAL | JANUARY 26, 2024 | UPDATE 24-091m | 3 PAGES

## Medical Policies – December 2023

### Check out the new policies and the latest changes to existing medical policies for procedures and services

The medical policies listed in this update were approved by Centene’s Corporate Clinical Policy Committee and/or Health Net’s\* Medical Advisory Council (MAC) for December 2023. For a complete description of the background, criteria, references, and coding implications for the medical policies, go to [bit.ly/MedicalPolicies](https://bit.ly/MedicalPolicies).

#### Purpose of medical policies

Medical policies offer guidelines to help determine medical necessity for certain procedures, equipment and services. They are not intended to give medical advice or tell providers how to practice. If required, providers must get prior authorization before services are given.

#### Medical policies vs. member contract

All services must be medically needed unless the member’s benefit plan coverage document states otherwise. That document defines member benefits in addition to eligibility requirements, and coverage exclusions and limits.

- For Medi-Cal plans, appropriate coverage guidelines take precedence over these plan policies and must be applied first.
- If legal or regulatory mandates apply, they may override medical policy.
- If there are any conflicts between medical policy guidelines and related member benefits contract language, the benefits contract will apply.

#### Updated Policies

Policy number and name	Change
CP.MP.186 – Burn Surgery	<ul style="list-style-type: none"><li>• Added criteria II.C. that burn must be deep partial-thickness or full-thickness.</li><li>• Added ‘...used according to FDA indications’ to II.D.3.</li></ul>
