

Join ACEs Educational Webinars and Earn CE Credits

LEARN MORE ABOUT SCREENING AND CERTIFIED TRAINING REQUIREMENTS FOR ADVERSE CHILDHOOD EXPERIENCES (ACEs) DIRECTLY FROM BEHAVIORAL HEALTH EXPERTS

The webinars are open to all staff who work directly with CalViva Health Medi-Cal members and includes, but is not limited to, physicians, case managers, nurses, and clinic staff.

Add these webinars to your 2022 calendar!

Participants will earn continuing education (CE) hours, as detailed below. This schedule is subject to change.

Check out more ACEs trainings to better equip you in your practice

Go to www.acesaware.org/heal/educational-events/ to view previous webinars provided by ACEs Aware to help you learn more about the initiative and why providers should screen for ACEs.

ACEs Aware training

To screen patients for ACEs, providers must complete a two-hour online training that focuses on trauma-informed care, the use of the ACEs questionnaire and age-appropriate screening tool. Register for the training at <https://training.acesaware.org/>.

Medi-Cal providers self-attest to qualify for payments

For continued reimbursement, providers must self-attest to the Department of Health Care Services by completing the Trauma Screening Training Attestation form available at www.medi-cal.ca.gov/TSTA/TSTAattest.aspx.
