

It's Almost Here – One Provider Portal for All Your Needs!

Learn about the new portal and useful tools to help you manage your patients' health

When we're making the change and why

On June 17, 2021, we are migrating **post-login** content from **provider.healthnet.com** to **provider.healthnetcalifornia.com**. You now have access to one secure post-login platform with easy-to-use tools to manage the health of your patients. This change also enables us to make improvements more quickly and helps you do business more efficiently.

What's not changing?

Provider.healthnet.com is still your main **pre-login** portal to access important information without having to log in to your account, including:

- Claims submissions (for providers already using provider.healthnetcalifornia.com).
- Pharmacy coverage, such as drug lists and prior authorizations.
- Medical policies.
- General FAQs on topics, such as encounters, member benefits and eligibility.
- Webinar calendars.

What's changing?

Your **post-login** content on **provider.healthnet.com** is migrating to **provider.healthnetcalifornia.com.** The new improved portal provides:

- Simplified views of various screens, options and functions.
- Easy-to-follow registration process with a progress indicator.
- Quick access to member eligibility check and overview of recent claims activity.
- Document Resource Center that allows providers to attach additional documents.
- Authorization views with multiple functions, such as filtering and obtaining additional details when needed.
- Claims views and submission functions, such as ability to submit individual or batch claims (for providers not already using provider.healthnetcalifornia.com).
