# Colorectal Cancer Screening

#### Early treatment can lead to a 90% survival rate after five years.<sup>1</sup>

Colorectal cancer is the third most common cancer in men and women. It is also the second most common cause of cancer-related deaths in the U.S.

Screening patients can greatly reduce the incidence and death rates of colorectal cancer. Only about 70% of adults ages 50–75 are reported as having received a colorectal screening test based on the 2020 Behavioral Risk Factor Surveillance System survey.

Health Net\* wants to help your practice increase Healthcare Effectiveness Data and Information Set (HEDIS®) rates. This tip sheet outlines key details of the Colorectal Cancer Screening (COL) measure, its codes and documentation guidelines.

#### Measure

Patients ages 50–75 who had appropriate screening for colorectal cancer with any of these tests:<sup>2</sup>

- Fecal occult blood test (FOBT) during the measurement year (MY): guaiac-based FOBT (gFOBT)/immunochemical FOBT or fecal immunological test (FIT).
- Flexible sigmoidoscopy during the MY or four years prior.
- Colonoscopy during the MY or nine years prior.
- Computed tomography (CT) colonography during the MY or four years prior.
- FIT-DNA (multi-targeted stool DNA test Cologuard®) during the MY or two years prior.

### **Exclusions**

- Patients who meet the following criteria anytime during the MY:
  - Medicare patients ages 66 and older enrolled in an Institutional Special Needs Plan (I-SNP) or living long-term in an institution.
  - Patients ages 66 and older with frailty and advanced illness (telephone visits, e-visits and virtual check-ins were added to the advanced illness exclusion).
  - Patients in hospice or using hospice services
  - Patients in palliative care.
- Patients with colorectal cancer or who had a total colectomy.

Exclusion codes		
Colorectal cancer	HCPCS: G0213-G0215, G0231	
	ICD10CM: C18.0-C18.9, C19, C20, C21.2, C21.8, C78.5, Z85.038, Z85.048	
Total colectomy	<b>CPT:</b> 44150-44153, 44155-44158, 44210-44212	
	ICD10PCS: ODTE0ZZ, ODTE4ZZ, ODTE7ZZ, ODTE8ZZ	
Palliative care	HCPCS: G9054, M1017	
	ICD10CM: Z51.5	
Telephone visits	<b>CPT:</b> 98966-98968, 99441-99443	
Online assessments (e-visit or virtual check-in)	CPT: 98969-98972, 99421-99423, 99444, 99457	
	HCPCS: G0071, G2010, G2012, G2061–G2063	

Advanced illness and frailty codes are too numerous to list. Please refer to the latest NCQA Quality Rating System (QRS) HEDIS Value Set Directory (VSD).

Medical record documentation and best practices	COL codes	
• Need date and type of colorectal cancer screening(s) performed. A result is not required if the documentation is clearly part of the "medical history" section of the medical record. If it is not clear, results or findings need to be provided to show screening was performed and not just ordered.	FOBT	<b>CPT:</b> 82270, 82274 <b>HCPCS:</b> G0328 <b>LOINC:</b> 12503–9 12504–7, 14563–1, 14564–9, 14565–6, 2335–8, 27396–1, 27401–9,
• Colonoscopy must be complete or evidence must show that the scope advanced beyond splenic flexure to be considered compliant within the time frame. An incomplete colonoscopy or evidence that the scope		27925-7, 27926-5, 29771-3, 56490-6, 56491-4, 57905-2, 58453-2, 80372-6
advanced into the sigmoid colon can be considered compliant as a flexible sigmoidoscopy.	Flexible sigmoidoscopy	<b>CPT:</b> 45330–45335, 45337, 45338, 45340–45342,
• Do not count a digital rectal exam (DRE) or FOBT test performed in an office setting or performed on a sample collected via DRE as evidence of		45346, 45347, 45349, 45350 HCPCS: G0104
<ul> <li>colorectal cancer screening.</li> <li>Educate patients on the importance of colorectal cancer screening. Discuss different screening options and make a recommendation based on patients' risks and preferences.</li> </ul>	Colonoscopy	<b>CPT:</b> 44388–44394, 44397, 44401–44408, 45355, 45378–45393, 45398 <b>HCPCS:</b> G0105, G0121
• Use standing orders and empower office staff to give FOBT or FIT kits to patients who need colorectal cancer screening or prepare referral for a colonoscopy.	CT colonography	<b>CPT:</b> 74261–74263 <b>LOINC:</b> 60515–4, 72531–7, 79069–1, 79071–7, 79101–2, 82688–3
• Implement a FLU-FOBT program to increase access to colorectal cancer screening by offering home tests to patients at the time of their flu shots.	FIT-DNA	<b>CPT:</b> 81528 <b>HCPCS:</b> G0464
Note: Rates stratified by race and ethnicity		LOINC: 77353-1, 77354-9
