Interested in Joining California's COVID-19 Vaccine Network?

The California Medical Association (CMA) provides onboarding support to select providers and groups who have expressed interest in joining the network but who are not yet contracted.

How will I be contacted?

California's third-party administrator (TPA) has provided CMA a list of pediatric providers, individual practitioners and small group practices who have inquired with the TPA about joining the network. CMA will be contacting these providers directly with more information.
